

TITANIC DATASET ANALYSIS USING PYTHON

Data Science Internship Project –
Task 3 (Exploratory Data Analysis)

Submitted By: Disha Bundela
Internship Organization:
DecodeLabs
Submission Date: June 2026

PROJECT OVERVIEW

Objective:

- Analyze the Titanic dataset and identify patterns and insights.

Goals:

- Understand passenger demographics
- Analyze survival statistics
- Examine passenger class distribution
- Develop practical data analysis skills

Tools Used:

- Python • Pandas • VS Code

DATASET OVERVIEW

Dataset Details:

- Total Records: 891
- Total Features: 12
- Dataset Type: Structured Data

Important Features:

PassengerId, Survived, Pclass, Name, Sex, Age, Fare, Cabin, Embarked

Purpose:

Understand factors affecting passenger survival.

STATISTICAL SUMMARY

Key Statistics:

-
- Total Passengers: 891
-
- Average Age: 29.36 Years
-
- Average Fare: 32.20
-
- Minimum Age: 0.42
-
- Maximum Age: 80
-
- Maximum Fare: 512.33
-

Observation: Passenger demographics and fares varied significantly.

ANALYSIS RESULTS & KEY FINDINGS

Survival Count:

- Survived: 342
- Not Survived: 549

Gender Distribution:

- Male: 577
- Female: 314

Passenger Class:

- Class 1: 216
- Class 2: 184
- Class 3: 491

The image shows a Windows IDE interface with a dark theme. The top menu bar includes File, Edit, Selection, View, Go, Run, Terminal, and Help. The Explorer pane on the left shows a project named 'WEEK1_DATASCIENCE_PROJECT' with files 'task2.py', 'task3.py', 'project.py', and 'Titanic Dataset Analysis using ...'. The Terminal pane in the center shows the execution of a PowerShell command to create a folder and a Python script, followed by the output of the script. The script prints the first 5 rows of a dataset and provides detailed information about the dataset, including the number of entries, columns, and data types. The right sidebar contains a 'CHAT' pane with a 'Build with Agent' section. The bottom status bar shows the current line and column (Ln 28, Col 25), the number of spaces (4), the encoding (UTF-8), the file type (CRLF), the language (Python), the version (3.13.5), and the location (Go Live). The Windows taskbar at the bottom shows the system clock (19:38, 01-06-2026) and various application icons.

[illegible]

Project Outcomes:

- Analyzed passenger demographics
- Examined survival statistics
- Generated meaningful insights

Skills Gained:

- Data Analysis
- EDA
- Python Programming
- Pandas Library

Thank You

CONCLUSION & LEARNING OUTCOMES
